

FirstPROOF v5.0

If you are upgrading to FirstPROOF v5.0 from a version of FirstPROOF v4.0, then there are a few things you need to be aware of:

1. This is a non-chargeable upgrade so you may re-use your existing Product, Upgrade and Activation Keys from previous releases. Simply use the Upgrade FirstPROOF menu item on the Security menu to enter them. Don't forget that you can simply copy-n-paste the entire 25 character key.
2. Version 5.0 can read all the configuration settings from earlier versions of FirstPROOF. However, this is a one-way process (earlier versions of FirstPROOF clearly know nothing about v5.0).

If upgrading to FirstPROOF v5.0 from an earlier release, please read the documents "FP v4.0.0 README".

If you ever have any suggestions as to improvements, or feedback on the product (good or bad), please do let us know at suggestions@hamillroad.com or feedback@hamillroad.com, as we really do like to hear from you and will add in things that get suggested.

We hope you enjoy using our s/w, that it makes you more productive and saves you lots of time and money.

Best Regards,

Hamillroad Software.
