

## **FirstPROOF v3.1 README**

If you are upgrading to FirstPROOF v3.1 from FirstPROOF v3.0, then there is little you need to be aware of, as it's a small feature update with a few bug fixes:

1. You may re-use your existing Product, Upgrade and Activation Keys from previous releases. Simply use the Upgrade FirstPROOF menu item on the Security menu to enter them. Don't forget that you can simply copy-n-paste the entire 25 character key.

If upgrading to FirstPROOF v3.1 from an earlier release, please read the document "FP v3.0 README".

If you ever have any suggestions as to improvements, or feedback on the product (good or bad), please do let us know at [suggestions@hamillroad.com](mailto:suggestions@hamillroad.com) or [feedback@hamillroad.com](mailto:feedback@hamillroad.com), as we really do like to hear from you and will add in things that get suggested.

We hope you enjoy using our s/w, that it makes you more productive and saves you lots of time and money.

Best Regards,

Hamillroad Software.
